WP8: Exploitation of results

Presented by *Kim Jauncey*

- To ensure that outcomes (developed and disseminated) are adopted and implemented by target audiences, even after the end of the funding period
- *“..... ensure that barriers to adoption are overcome and routes to exploitation are properly identified”*

Objectives

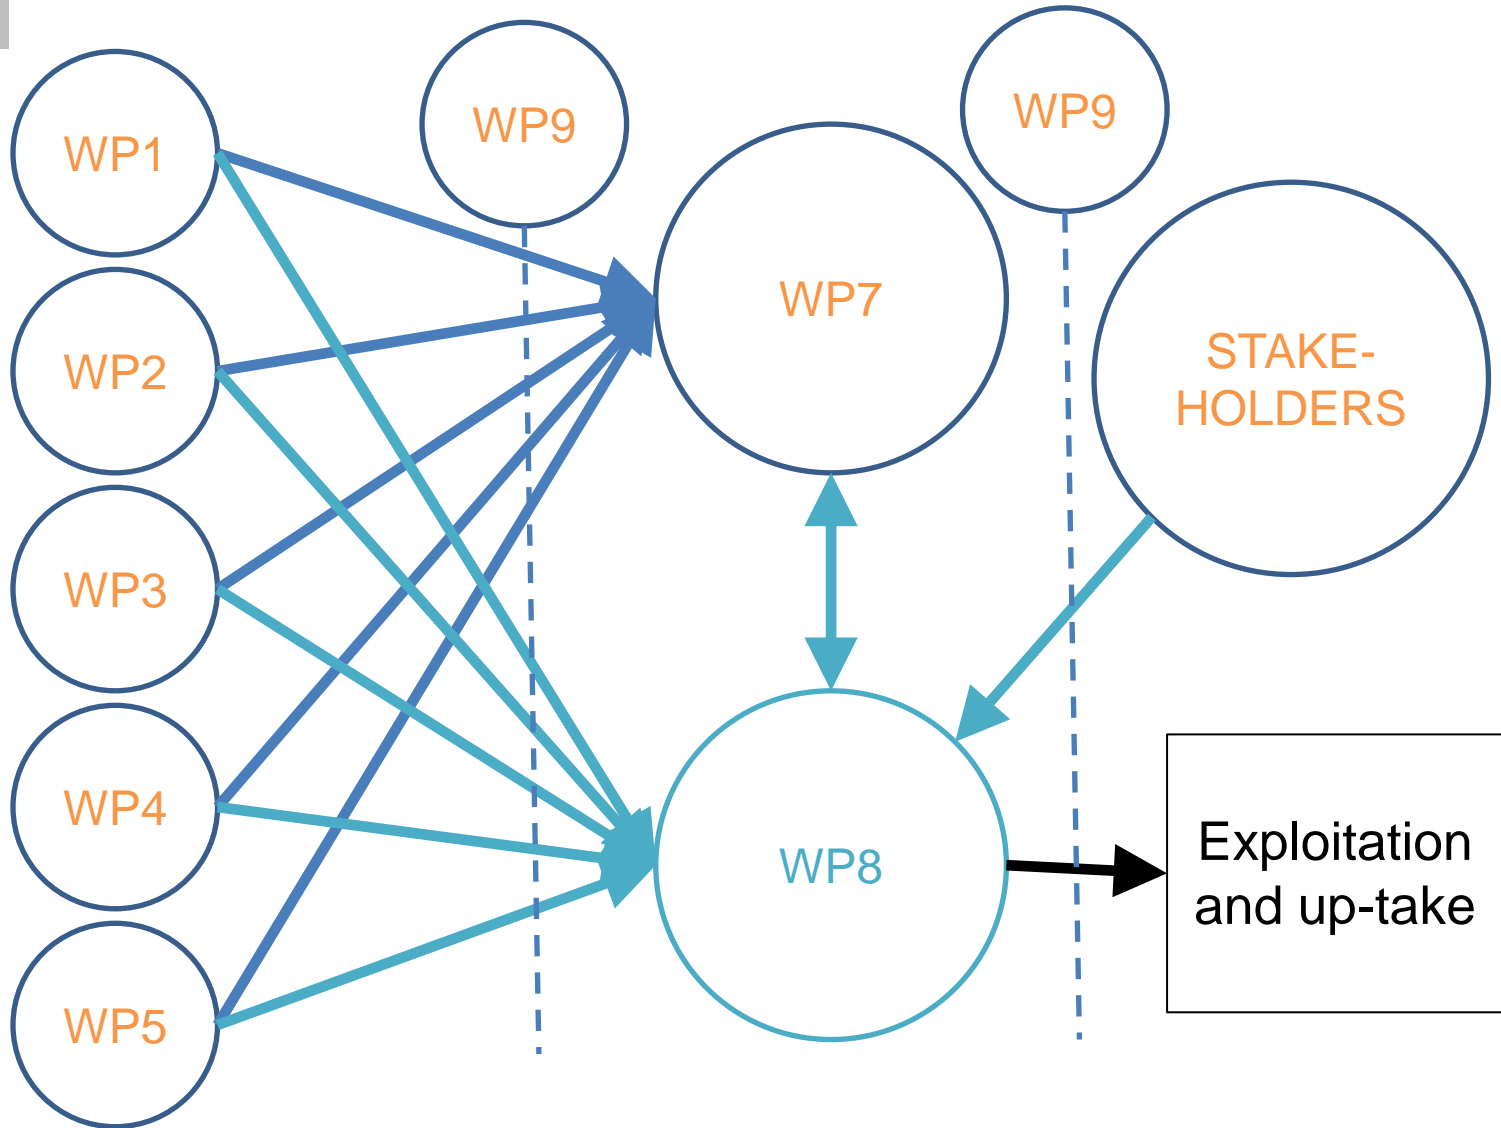

- Optimise project value, maximise achievements
- Develop/maintain exploitation plan
- Transfer project outcomes to relevant domains (network domains, educators)

How?

- Work with WP leaders to identify exploitable results and develop plans
- Build contacts in stakeholder and partner organisations to understand how to use these results
- Investigate methods of providing outcomes for use, e.g. Open source (VLE, open access web facilities)
- Uptake - How well have the results been used?

Relationships to other work-packages

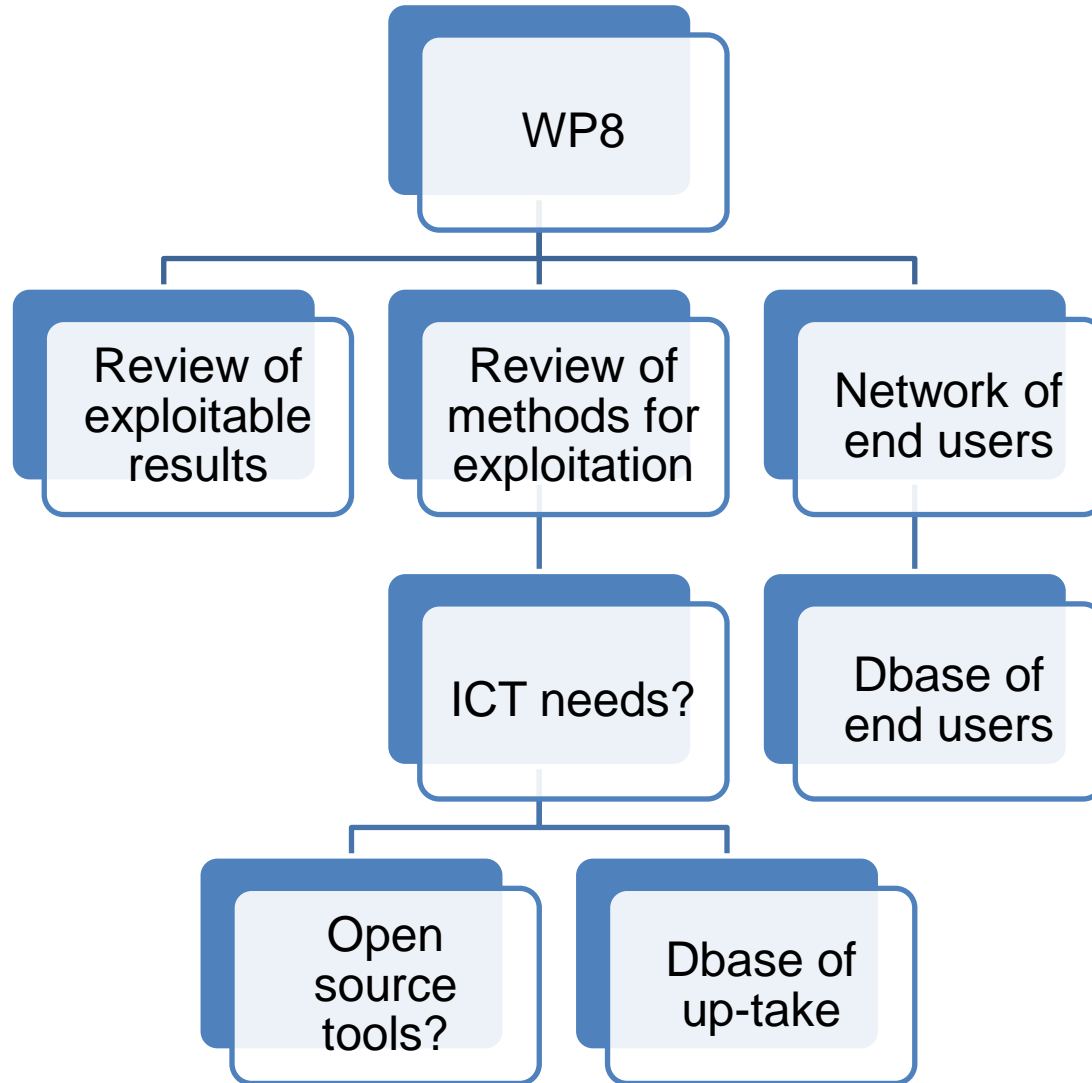

Deliverables

1. Review and discuss exploitable results and activities and methods for exploitation
2. Network with end-users on implementation WP results
3. Identification and use of exploitation tools (methods, open dissemination)
4. Monitoring of dissemination and exploitation
5. Meeting and final report of WP8 exploitation results
6. 'State of Innovation' reports

Methods

Exploitable results to date

WP1 European Master Collaboration

- As presented by Mike Moulton
- Website.
- The principal exploitable results from WP1 are on the AquaCase website:
<http://www.aquacase.org/>
- An introductory training course is being built around these materials and will be complete before the end of the project.
- The next phase (an MSc strategic partnership)?

Exploitable results identified to date

WP2 European PhD Collaboration

- As presented by Peter Boissier
- PhD Portal – lists of courses taught in blocks as components of PhD training across Europe.
- Five new courses identified, one course developed (Microbial Community Management) delivered as a one-time event.
- Erasmus Mundus activity links identified.

Exploitable results identified to date

WP3 aqua-tnet on the move (Mobility)

Mobility Mapping

- As presented by Lluís Tort
- The Mobility Map that has been produced is being updated and expanded.
- It will become the vehicle for communicating placements/internships.
- The guide and information pack for 'movers' developed by WP3 forms part of this service in the form of checklists with links.
- The list of grants/financial support and contacts is already a valuable exploitable resource.

Exploitable results identified to date

WP4 Generic Skills for Future Success

- As presented by Graham Pierce
- Survey of stakeholders regarding skills and attributes to be used to guide programme delivery.
- Employability agenda.
- 3 new generic skills courses prepared for delivery, to be complete shortly. Hosting not clearly resolved.

Exploitable results identified to date

WP5 Innovative Lifelong Learning

- As presented by Margaret, Bernd and myself.
- A large part of the 5A and 5B ‘output’ will be in the form of the ‘Special Issue’ publication.
- Part of 5C ‘output’ has been the Workshop over the last 2 days.

Exploitable results identified to date

WP6 Stakeholder Cooperation

- Progress as reported by Jean Dhont.
- Industry Work Placements will be promoted via video interviews conducted at AquaNor and their distribution.
- LLL in industry, promotion through links with WP1 using an external consultant.
- Mapping tool for student research opportunities in Europe.

Exploitable results identified to date

WP7 Dissemination and Outreach

- As presented by Marieke Reuver
- The Public aqua-tnet website
- The Education Gateway
