Date of Birth: 14 Dec. 1987

Nationality: British/Italian

CAREER OBJECTIVES:

I am focused on building a career as Aquaculture Technician specialized in fish pathologies and I know that this dynamic and unforeseeable environment will give me the challenge I thrive on. I am a strong relationship builder, resilient and motivated by passion and the will to succeed.

EDUCATION:

2011 - 2012 **MSc (Distinction) in Sustainable Aquaculture Systems, at Plymouth University, UK.**

This Master degree course improved my scientific and technical knowledge on fish nutrition, fish husbandry and health and provided the tools to overcome aquaculture environmental and socio-economic impacts.

- A four-month Research project conducted on the use of alternative proteins in rainbow trout diets planned with my supervisor.
- I was responsible for the management of a Recirculating Aquaculture System (RAS) after a short induction period. I demonstrated a practical approach, problem solving skills and quick learning abilities.
- Collaboration with MSc, PhD and Post-doctoral students in their researches where I obtained outstanding results and team work skills.
- Conducted Histological and feed digestibility trials independently.
- Demonstrated communication skills during class presentations, resulting in being chosen as speaker during the visit of industrial sponsors and visitors at Plymouth University.

2006 - 2011 **BSc (Hons.) 2.1 in Biological Sciences at Tuscia University, Viterbo, Italy.**

- Eleven-month exchange programme at Plymouth University, UK, Laboratory work experience.
- Water quality monitoring using aquatic macroinvertebrates in the stream of Paglia (Lazio, Italy).
- 12,000 word dissertation analysing the causes of cetacean strandings

Demonstrated the ability to adapt to different working environments, collect and analyse data.

2001- 2006 **Diploma in “Secondary School of science”**

WORK EXPERIENCE:

2006 – 2011 **Construction Worker, “Fabretti Construction”, VT, Italy**

Duties: Assisting builders with measurements, bricklaying, plumbing and organizing equipment.

2009 **Lifeguard – Municipality of Ronciglione, Lake Vico Beach**

Supervised the safety of swimmers, surfers and other water sports participants. Certified in water rescue and trained in first aid.

VOLUNTARY EXPERIENCE:

2004 Taught guitar and organized music events.

2003 Scouts; organized trips and sports events.

ADDITIONAL SKILLS:

Languages

- English and Italian fluent
- Spanish semi-fluent, learnt while travelling

IT

- Confident with all Office applications, email and internet
- Competent with statistical analysis software (SPSS, Minitab)

ADDITIONAL:

- I love music, reading and doing sports, especially swimming.
- I like travelling and meeting people. Most recently I joined an Aquaculture Study Tour in Malta with the Food and Agriculture Organization of the United Nations (FAO) where I was acquainted with most of the FAO Fisheries Resources Officers.
- Clean driver’s licence
