

Purpose: Master thesis internship

Education

2010-2014 : Ecole Supérieure d'Agriculture (ESA), engineer school (equivalent to master degree) in agriculture, Angers, France

4th year: 1st semester, « *master in aquaculture* », University of Life Sciences, Ås, Norway

2nd semester, specialization into « *Animal production* », ESA

5th year: specialization into « *Trade and International Markets* », ESA

2008-2010 : University Diploma of Technology, Bioengineering & Environmental Engineering, Aurillac, France

Work Experience

2013 (3 months) : Market Research for InVivo Group (France)

→ Implementation and synthesis of quantitative and qualitative studies on market opportunities for animal feed (all animal species) in Sub-Saharan Africa

2013 (3 months) : Research assistant at INRA (French National Institute for Agronomic Research) : « Searching for genetic markers associated with the effectiveness of the use of a plant-based diet by rainbow trout »

→ Experience in animal nutrition, nutri-genomic, molecular biology (primer design, PCR), biochemistry, aquaculture, statistical analysis (R software)

2011 (4 months) : Research Engineer/Technician/Manager assistant at Icy Waters Ltd, Whitehorse, Canada

→ Personal research project in animal nutrition + experience in aquaculture (hatchery, Arctic Charr production, processing), health and safety, logistics, project management

2011 (2 months) : Worker in a dairy farm

2010 (3 months): Technician in a french research laboratory in Bordeaux Agro Sciences, agriculture engineer school

→ Experience in molecular biology , biochemistry, laboratory work

Languages & Computer skills

Languages

French : Native proficiency

English : Professional working proficiency, 9 months of practice in English-speaking countries;
→ TOEIC 905

German : Limited working proficiency

Softwares

Office (Word, Excel, Powerpoint) : Very good ability

Statistic software « R » : good abilities

Additional information

Interests : aquaculture, aquaponics, animal nutrition, entomology, intercultural, drawing, music

Associative activities : organization of shows

Volunteering : archaeological research at the University Centre for Teaching and Research in Archaeology
