## SUMMARY

**Objectives:** Submission of an updated TUNING application

**Rationale:** The intention was for this to result in updating of the 'Tuning' template draft developed in an earlier aqua-tnet project.

**Results:** 'Tuning' has been changing over the course of this project and insufficient guidelines or policy decisions have been produced to allow the project to properly update the earlier work.

- Details of the Tuning Academy (hosted by the University of Deusto and the University of Groningen) can be found here:  
<http://www.unideusto.org/tuningeu/tuning-academy.html>
- Duesto and Groningen act as "European Tuning Information and Counselling Centres (ETICCs)"
- 33 countries have Tuning Information Points (TIPs) listed in the Tuning Academy.
- It is unclear whether (and how) new subject areas can be added to the list of those 'Tuned'.
- As well as the, largely historical, resources of the Tuning Academy, they have also set-up a biannual Tuning Journal:  
<http://www.tuningjournal.org/index.php/tuning>
- 2 issues have been published (Nov 2013, May 2104) each of which contains a wealth of relevant articles.
