Details of previous work experience:	No
Authorised to work in the EU:	No – will request permit assistance from company
Driving licence?	Yes
Special considerations	Since I was a child I always loved to watch all those documentary's about biology, in special marine biology, and along the years this passion took me to the degree of Aquatic Sciences I'm taking at ICBAS (my university). As a portuguese, I have a big connection with the sea, and knowing my country has a great future in Aquaculture as in many other areas of aquatic sciences I decided to pursue my dream. With my graduation almost finishing, I do know the weight of experience in this field of work, and this is a great opportunity for me to sell my fish and get as many knowledge and experience as I can to learn new methods and aspects of Aquatic Biology as in Aquaculture as in all aquatic domains.
